AGE CALLED TO ACCOUNT.

The Brooklyn Presbytery met Moning Rev T DaWitt Talmage, pastor of the Brooklyn Tabernacle, to account for wandering from the prescribed lines of Presbyterianism, and thereby bringing religion into contempt. There was a large attendance and the friends of Talmage rallied around him in force. Rev. Dr. Crosby offered the following:

WHEREAS, Rev T. DeWitt Talmage, D D , is charged by common fame with falsehood and deceit, and using improper methods in preach ing which tend to bring religiou into contempt; and whereas it is the duty of the Presbytery to protect the good name of its memocra when they are unjustly assaited and to subject those who offend to proper discipline;

therefore. Resolved, That a committee con sisting of three ministers and two elders be appointed to investigate the nature and extent of the common fame referred to in the preamble, and report to the Presbytery what, if any, further action shall be taken.

Our Steamer, 15 5

The steamer was out for practice yesterday afternoon and it gid its work well, as usual. A large number witnessed its performance and a very frequent remark was that "she has paid for herself already." With plenty of water she can stop almost eny fire that can occur, but with empty mains she is powerless. Xesterday's practice showed the engine to be in good order ...

Morkis Ash's saloon und a narrow e-cape from tire last evening. The dripping from a leaky lamp caught are, and communicated itself to or: mamental grasses on the wall. The prospects for a hig fire were excellent on buildings and dropping them in for a time, but a blanket quickly smothered it before damage was done.

A Probability of Success. The petition for daily service on the mail route from this point to Willow Ranch has now the signature whom feel deeply interested in its nent have individually written to our the best gentleman character and representatives in Washington requesting their attention to it, and it tumer will give one to the best is said that our State L-gislature will memorializ + Congress on the subject, The importance of this matter is hardly realized except by a few. As a mail line this is likely to become, and, in fact, is now becoming one of the principal channels of coin munication between Southern Oregon, large portions of Northern California and Nevada, and all points east of Reno. Formerly most of this muil matter reached San Francisco and Sicramento by circuitous routes and thence came east; but since the establishment of this line last July is becoming what it is finally destined to be, one of the principal mail channels to Oregon, &c. Strennous efforts are being made by Redding, Cd. and the Dilles, Oregon, to retain the mails in their old channels. This is not so much because of the mails as for sake of the consequent trade Those points are much more keenly alive to the importance of this matter than Reno is. They know that the territory lying to the north and w st of Surprise Valley is rapidly filling up with a prosperous population, and that the town from which its supplies are forwarded and its produce exported will derive very important benefits therefrom. Reno in the natural course of things should be that town, out heretofore by declining direct communication, and neglecting such public improve mente as invite trade, she has de frauded herself of that which other towns were only too glad to receive. Were it possible for those more en terprising communities to overcome the inclemencies of the seasons our town might now be seeking this trade too late, but with our excellent nat ural road to the north always open in Winter and Summer, she has only to ask and she shall receive. The present depression here is teaching as not to rely too confidently on local resources, but to cultivate the most friendly and intimate business relations with those who may have patrouses to bestow in times of our need. Fealty to public duty makes it incumbent on our representatives

and the influential assistance assured in Washington, should enable the Hon. Thos. Wren to whose care the petition is entrusted to be successful,

Paradise Mines. Dr. Bishop is in from Paradise and from him we learn that the camp has excellent p.ospects. He says that a good many prospectors there make good wages by picking up the float rock which is rich enough to pay them. The Paradise mine itself has a ledge from 10 to 15 feet wide which average \$150 to the ton. Dr. B. habeen so busy since he has been there looking after the sick, that he has not fully investigated the mines, but from a general view of the outlook he pronounces it as a very promising camp. It is almost sixty miles from Winnemacca, and the fare by stage is \$5 to Paradise or \$6 to the mines. Several chronic prospectors were alter him yesterday getting items, and some signified their intention of going there to try their luck. Dr. went back this morning.

No Joking Matter.

Complaint is made that some one has been putting 601 notices around the Postoffice for parties to them objectionable. This is wrong, Reno has shown itself capable in the past to take care of itself and when it saw fit to give "tickets of leave," saw that fered, the consequences, and she is able to do so again should occasion require. In view of this fact it is a piece of unwarrauted assumption on the part of any individual to send or post these notices "for fun" or spite, and if discovered be might well fear a coat of tar and feathers. To trifle with such things only serve to deceive objectionable ones who can not

The Pavilion is being put in good shape for it and altogether we can safely count on an event of more than usual grandeur and pleasure. The Masons are doing everything possible to ensure its anccess, and we can not see how they can possibly fail.

Llive with Prospectors.

The country just north of Reno is full of prospectors, all of whom are busily engaged in developing ledges. Several shafts are being sunk, and in some places ore is being taken out. The prospectors are so numerous that one comes upon them every little while. Assays ranging all the way from \$14 to \$20 are but of the croppings in several places. Locations are being made all through that aretion, and this Summer there will be a good deal of life out there.

Gladstone bas written to the Liber als of Midlothian that he thinks the invitation they sent him to stand for Parliament arises from a desire to do what they can to present the question whether the country wishes to continue to be governed, as now, as a accepts their foffer.

AMBRICAN BEFF IN EGLAND.

The proposition to prohibit the transportation of cattle from Amer ics to England is without doubt, a movement in the interest of English landed proprietors says the Call. ,The American producer undersells the English producer in his own markets, and this roins his trade, He must either sell beef at the same rates ahis American competitor, or retire from hasiness. The man in search of a beefsteak is not impressed with the kind of patriotism which induces bim to pay ninepence a pound for tough English beef, when a better quality of American beef can be purchased at a lower price. If it was only the beef producer who was injured by the appearance of American beef in English markets, the chances are that complaints would be a long time reaching Parliament, Hence the extreme sensitiveness of Parliameet on the subject of the disease of pleuro-pneumonia, which is said to have made is appearance among the cattle on the ship Octario. It is the practice in England to let trade take all the chances of business. The landowners receive a fixed sum per year for cent of Claud; the deser to pay taxes and rates of all kinds, taking the chances of an increase or decrease from year:to year. The landowner, with a rent roll of £40,000 a to the Indians. Leon resisted the year, knows his income to a pound. officer-assaulting him with a bottle, The lessees of the land assume all but Avery was game and in a short responsibility. But if an influence is set at work, which prevents the lessee from making his rent, when his private means are exhausted he fails to pay his rent This is what has probably happened to the English beef producer. The introduction of American beef into English markets have ruined his business. He cannot get the same price as formerly, and consequently cannot pay the same rent for land. The land proprietor than can be bought elsewhere. Preis not touched until the intermediate scriptions carefully compounded at are ruined; but when their effects greatly reduced rates at Osburn & have wasted in endeavors to pay an exorbitant rent, and landed proprietor's turn comes. The movement to prevent the importation of American beef into England indicates that the landowners are apprehensive that their turn is at hand
